About ADEPT

ADEPT is the voice of 'Place' Directors in upper tier local authorities.

We are a membership based, voluntary organisation. ADEPT's members are drawn from 'Place' Directors, Combined Authorities, Sub-national Transport Bodies, Local Enterprise Partnerships (LEPs) and commercial partners. We work to get the balance between social, economic and environmental objectives, and are at the heart of creating vibrant sustainable places that work for all.

Partnership is at the centre of everything we do, working to solve complex political and policy problems while constantly looking for innovative solutions. We work strategically with LEPs and corporate partners to deliver place-based services to local communities.

ADEPT operates a unique system of technical working groups, subject and sub-national boards that work to support members through sharing best practice and technical expertise, facilitating strategic thinking and providing networking opportunities.

We develop the policies and initiatives that we take to Government, representing the views of our members to Whitehall and Westminster, working alongside key Government departments and agencies.
