

ADEPT Asset Management Group meeting- 2nd March 2017

The Asset Management subgroup met on 2 March 2017, this subgroup meeting was followed by a joint meeting with the ADEPT SMDS group. The main topic of the subgroup meeting was a review of the business plan, the discussion focussed on future promotion of the benefits of asset management and how to identify authorities which may need more assistance to progress; an action plan was agreed. Work is also being progressed to facilitate better communication with stakeholders; this is proving to be a challenge with many options to be considered. The group also highlighted that can be different approaches taken to tackling the new risk-based requirements of the code of practice specifically taking a holistic approach or a segmented approach within the wider asset management principles.
